

## Partnership Disputes

Business dispositions and dissolutions typically involve strong-minded individuals who are unable to reach an amicable resolution on the division of their business assets. If you face such a controversy, rely on Lewis Roca Rothgerber Christie attorneys who are experienced in contested business dissolution cases involving the members of limited liability companies, limited partnerships, S corporations and a variety of other entities. Such cases often involve allegations of breach of fiduciary duty, theft or concealment of business assets and similar business torts, and we apply a full range of skills, from forensic financial investigation to complex tax analysis, to resolve them effectively. Our goal when we represent you in any such dispute is to combine an efficient liquidation of assets with a settlement of outstanding claims in the most efficient way possible.
